We tailor-make our solutions according to your company's exact short- and long-term requirements and offer different types of finance solutions that covers solar and other renewable energy installations.

Solarise Africa only works with partners that are known for quality products and have a proven track record. Our partners are always focussed on customer service and are flexible in their approach. We only partner with companies that are based in the country where the projects will be.

To ensure the quality of our partnerships, Solarise Africa performs a technical and financial due diligence on each potential partner. With clearly defined roles and responsibilities, we establish KPI's that will measure the success of the partnership.

Solarise Africa is proud to announce its nomination for the coveted title of "African Solar Company of the Year" at the AFSIA Solar Awards, marking the second consecutive year the company has received this prestigious recognition.

Solarise Africa is delighted to announce that its Co-Founder and Chief Operating Officer, Sakkie van Wijk, has been honoured with the prestigious "COO of the Year" award at the Solar Assets Africa Awards 2023.

Wednesday, 9 September 2020, Johannesburg "Innovative renewable energy leasing solutions attract significant global investment Pan-African energy leasing company, Solarise Africa, has landed a further
