The Yuasa Yucel NP17-12I is a maintenance-free, rechargeable 12V17Ah sealed lead acid battery that is commonly used in alarm systems, emergency lighting and other stand-by power applications requiring a high-rate discharge. Each battery is individually tested and features a longer life span than conventional lead acid batteries, making them ideal for critical applications where reliability is paramount.

Featuring AGM (Absorbed Glass Matt) technology, the NP12-17I retains the maximum number of electrolytes in its cells and the valve regulating design ensures safe, low pressure venting of excess gas.

Connectec Limited Registered Office: Croesnewydd Road, Wrexham Technology Park, LL137YP. Registered in England and Wales. Company reg. number 10933159 | VAT no. GB277433186 | D-U-N-S® Number: 223187960
