Meet the newest addition to Solar Electric Supply's sustainable energy solutions - Our 3.6 KW Complete Home Solar Kit. Designed specifically for mini homes, accessory dwelling units (ADUs), Multi Unit Residential, and compliance with California's Title 24 solar mandate. Our renewable energy system satisfies AIA LEED and Energy Star Certifications for USGBC Green Energy Buildings.

Whether you're a homeowner, contractor or developer looking to power a tiny home, an ADU, or a professional seeking Title 24 compliant solutions, our 3.6 KW Solar Kit is ideal for meeting your LEED and Energy Star requirements. Architects and designers specify our systems to comply with the USGBC green building rating system.

This 3.6 KW system is an ideal choice for homes and Accessory Dwelling Units (ADUs), offering a sustainable and cost-effective way to power small residences and supplementary living spaces. Its integration transforms these areas into eco-efficient hubs, utilizing clean energy solutions that significantly reduce carbon footprint and energy costs. For multi-unit residences like apartments and condos, this system presents a unique advantage. It enhances energy efficiency and boosts resident satisfaction by providing a reliable, green power source.

This study is crucial as it gathers all the necessary information to evaluate the viability of a solar installation. The study includes findings from multiple analyses that identify critical design constraints and issues. The Assessment Report includes the location of arrays, a roof layout with dimensions, a shade report, a bill of materials, expected production, and financial indicators. These financial indicators include the cost, incentives, rate of return, financial payback, and ROI payback.

The Grape Solar GS-12-PANEL-KIT-SE consists of 12 high efficiency PERC cell Grape Solar 300-Watt Monocrystalline panels and a SolarEdge 3800H inverter (including optimizers and Zigbee)

Professional installation by licensed electrician or solar installer is highly recommended and required in some areas and be sure to check local zoning codes and home owner associations prior to purchasing
