

30 kWh lithium-ion battery

30 kWh lithium-ion battery

These fantastic stackable batteries are a perfect solution for any solar panel installation whether it be a new project that requires electricity storage, an existing one that you'd like to add storage to, or expand what is already there.

Please feel free to contact us to discuss your requirements as to ensure these batteries are suitable for you. Happy to answer any questions you might have ☎️; 01726 43 2505

The safe Lithium Iron Phosphate (LiFePO₄ or LFP) batteries with enclosure makes installation simple with copper bus bars for each battery module. Cables are provided from the host battery module to the inverter at a customer determined length. Coupled with the Sol-Ark inverters, this is a pre-wired system that contains the battery, inverter, charge controller, and more, all in one package; no fuses, breakers, or combiner boxes necessary! With minimal additional hardware required, your install stays simple and low-cost.

Easy Installation: Battery module design fits our indoor/outdoor cabinet and wall mount option with closed loop communication with Sol-Ark inverters. This is a pre-wired system that contains the battery, inverter, charge controller, and more, all in one package; no fuses, breakers, or combiner boxes necessary! With minimal additional hardware required, your install stays simple and low-cost.

Superior Safety: POWERSYNC designs all systems to meet and exceed all safety requirements for energy storage systems. At the cell level our systems have successfully passed explosion resistance crush, puncture, drop and impact tests. At module, stack, and system levels, our advanced battery management system balances the cells and the paralleled modules, protects against under/over voltage and current, temperature and short circuit protections.
