

300 amp lithium batteries australia

300 amp lithium batteries australia

Fusion Lithium batteries deliver safe lithium phosphate energy storage solutions in standard lead-acid battery sizes for a wide variety of applications. They are designed as a direct drop-in replacement for similar-sized lead-acid batteries offering twice the run time and less than half the weight. Fusion Lithium Phosphate Batteries are extremely lightweight batteries designed for deep-cycle (cyclic) applications. They are completely dry batteries, making them spill-proof, and leak-proof.

Fusion Lithium Batteries is the pioneer of lithium deep-cycle batteries in Australia. Our industry-leading advancements in lithium technology have made us the benchmark for lithium deep-cycle technology worldwide. With a major focus on research and development, Fusion Lithium Batteries have been designed to be superior in every aspect. Our lithium batteries are the lightest, yet most powerful lithium batteries in the world.
