

Adjustable depth junction box

Adjustable depth junction box

The Romex(R) Brand SmartBox(TM) Original Device Boxes excel in versatility, especially in new work locations where hammer swinging is limited or where final wall surfaces are uncertain, such as kitchens and baths. Their superiority is evident in old or retrofit work scenarios because they are consistently mounted to a stud. Elevate your electrical projects with high-quality solutions designed for reliability and performance with our comprehensive range of Romex(R) Brand wire & cable, smart boxes, hand tools, and rough electrical components manufactured exclusively by Southwire.

Engineered by Southwire, our SmartBox(TM) Boxes offer unparalleled durability and are easy to install. Ideal for both commercial and residential building applications, these innovative smart box solutions ensure safety and efficiency in every residential building project. Trust Romex(R) Brand SmartBox(TM) solutions to deliver quality and dependability for all your electrical wiring needs.

Technology advancements are adding complexity to construction. Innovative Southwire building solutions simplify electrical wiring projects, avoid costly delays, and power innovation for your customers. Our versatile smart boxes, ideal for both new and retrofit work, are designed with the future in mind to help buildings evolve to an all-electric world.

Our UL Listed ceiling box for light fixtures is deal for upgrading light fixtures to light paddle fan combos with unmatched versatility that is immediately recognized by the electricians in the field.

Created for residential and light commercial building use, housing wiring devices, or distributing power to multiple electrical devices, these innovative smart boxes allow for more cubic inch in the box.

Our smart boxes are unmatched in both new or old work applications for easy and secure wiring installation, providing a reliable solution for housing wiring devices in residential building and light commercial building projects.

"Early in my career I found a need for a more versatile electrical box. Instead of "thinking outside the box" I thought "Inside the box" and designed a full line of electrical boxes that accommodate all professional and DIY needs."
