Read this article to see car battery brands comparison of O'Reilly and other brands. Who Makes Batteries For O'Reilly Auto Parts? O'Reilly Auto Parts car batteries Super Start are manufactured by two well-known companies: Clarios (previously Johnson Control), and East Penn Manufacturing. Clarios worldwide producer (previously Johnson Controls Inc.) committed to providing car batteries to over 1000 O'Reilly Auto Parts stores. O'Reilly Automotive, Inc. honored East Penn Manufacturing Inc., Co. with the Special Merit 2002 Vendor of the Year Award.

This is East Penn's first time receiving this prestigious award. East Penn was recognized for its ability to provide high-quality, innovative products as well as excellent customer service. East Penn was also recognized by O'Reilly Auto Parts for its wide distribution network and self-sufficiency. How Long Is The Warranty On O'Reilly Auto Parts Batteries? Depending on the type of O'Reilly Auto Parts batteries, the warranties are different lengths.

This warranty does not cover any battery that fails due to misuse, abuse, low fluid level, freezing, incorrect installation, or another faulty part. How Long Do O'Reilly Auto Parts Batteries Last? Most batteries out there last at least four years with little to no maintenance. Super Start batteries from O'Reilly Auto Parts are no exception. Super Start batteries also last at least two to five years, depending on the model.

With proper maintenance, you can make Super Start batteries last a lot longer. That includes putting your battery on a trickle charge once every month, or even every week, or every other week. The number one key to prolonging car battery life is to keep your battery at full charge. This will prevent oxidation of the lead plates inside your battery and keep it in good health.
