

Azar Chemical Industries Limited

Azar Chemical Industries Limited

At Norkem, we pride ourselves upon our excellent industry knowledge, our highly experienced and professional sales teams fully understand the products and markets in which we work. This expertise means that we are perfectly placed to assist with your enquiries and requirements.

We have excellent long-standing relationships with fully-accredited suppliers and you can depend on us to reliably source the chemicals that you need at a competitive price. For further security, we keep a very close eye on the chemical supply pipelines and have contingency plans in place to ensure the continuity of supply in our endeavour not to let our customers down.

As a chemical supplier, Norkem is firmly committed to meeting the highest environmental and health and safety standards. We are also thoroughly dedicated to working towards a more sustainable future for the chemical distribution industry.

If you would like any further information or assistance, please do not hesitate to contact us. You will find our full contact details available here on our website and a member of staff from one of our sales teams will be only too pleased to help you contact us now.

The food and drink industry is heavily regulated and Norkem have a dedicated Group Quality Department to ensure we meet international standards including the 'BRC Global Standard for Agents and Brokers'. Our in-depth knowledge and awareness of regulatory, quality, food safety and compliance requirements, provides you, our customers, with the peace of mind you require in this demanding sector.

Norkem takes its responsibility on Genetically Modified Organisms (GMO's) very seriously and we understand our customers require an efficient supply chain. To this end we work with manufacturers who are approved under the UK ValidIT scheme.

We ensure our suppliers have the relevant certifications and accreditations, all of which are checked and verified. For products sold into the food chain and as part of our due diligence system we positively pre-release materials. We have access to a BRC Grade AA accredited solution facility where we can create bespoke liquid blends.

Norkem is a leading name in the supply of trace elements and specialised additives for the animal feed industry. Extensive research and sourcing allows us to offer a wide range of organic and inorganic products to meet your animal nutrition needs with our bulk chemical supply.

Why work with Norkem for your animal nutrition chemical needs? Quality, sustainability and safety are at the core of our chemical supply for animal feed. With ever increasing legislation in the animal nutrition chemical

Azar Chemical Industries Limited

sector, Norkem has established a Group Quality Department to ensure that we meet and often surpass international standards. Our in-depth knowledge and awareness of new regulations and compliance requirements in the animal nutrition industry provides you, our customers, with the peace of mind you require in this increasingly regulated sector.
