

## Baku flow batteries

The seventh edition of the Energy Storage Global Conference (ESGC) will take place on 14 - 16 October 2025 in Brussels. What can you expect from the #ESGC2025? Policy Day Discuss energy storage market design and regulatory frameworks with policymakers, National Regulatory Authorities, and speakers from around the globe. Market Day Hear about best practices and [&hellip;]

Each year, EES Europe, Europe's largest and most international exhibition for batteries and energy storage systems, provides a networking opportunity for the industry's key players, such as manufacturers, distributors, project developers, systems integrators, as well as professional users and suppliers - all under the motto "Innovating Energy Storage". It focuses on the latest technologies, trends [&hellip;]

The International Flow Battery Forum (IFBF(R)) is the leading event for the flow battery community. The IFBF promotes the most recent developments in the science, technology and commercialisation of flow batteries. Our conferences cover a broad range of interests in the research and commercial aspects of flow batteries. Since 2010 the IFBF has held eleven in-person [&hellip;]

22 November 2024: Following the release of FBE's publication, Reports on Regions - Asia Pacific, FBE gathered nearly 100 participants to dive into key insight from the report at a webinar titled, Asia-Pacific policy landscape on flow batteries. Insights and the way forward. This is the first of the Flow Batteries Europe Reports on Regions [&hellip;]

18 November 2024: The Asia Pacific region is rapidly positioning itself as the world's largest market for flow batteries, driven by progressive energy storage policies, as highlighted in FBE's new publication Reports on Regions - Asia Pacific. The report provides a comprehensive analysis of the Asia Pacific energy storage and flow battery policy landscape, examining [&hellip;]

15 November 2024: Flow Batteries Europe (FBE) is thrilled to announce that its Working Group on Carbon Footprint Calculation for Flow Batteries will launch on 12 December 2024. The formation of the Working Group has been spurred by the Batteries Regulation which imposes an obligation that every flow battery placed on the European market should [&hellip;]

8 November 2024: From 11 to 22 November 2024, the 29th edition of the Conference of Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC), COP29, will take place in Baku, Azerbaijan. What is COP? Since 1992, the Conference of Parties is a meeting of nations that have signed the UNFCCC, which has [&hellip;]

As the global push for clean energy accelerates, efforts to integrate energy storage vary significantly across regions. Flow Batteries Europe has investigated the global landscape in its upcoming publication, Reports on

# Baku flow batteries

Regions - Asia Pacific, with a particular focus on energy storage policies and flow batteries. This is the first of the Flow Batteries Europe Reports [&hellip;]

The Virtual Battery Day 2024 will be held online on 13 November and it welcomes everyone involved in the battery value chain, from research and development, material production and the manufacturing of cell components to quality control and recycling. Beata Virsumirska, FBE's Policy Officer will feature online at the event, who will present about FBE's [&hellip;]
