

Battery life st george

Battery life st george

Dixie Battery Exchange is Southern Utah's oldest and most established battery specialist, offering a wide range of services and products to meet all battery needs. With a focus on environmentally friendly practices, they are an approved lead acid battery recycler, ensuring that all batteries are disposed of properly. As a locally owned and operated company, Dixie Battery is committed to supporting the community and keeping the economy thriving.

With a reputation for weathering economic storms and providing exceptional customer service, Dixie Battery is the go-to destination for all starting, lighting, and ignition battery needs. They offer a variety of battery types, including SLI, SLA, AGM, and Deep Cycle, and their experienced team is dedicated to honoring warranties, providing maintenance services, and offering expert advice. By choosing Dixie Battery, customers can support the local economy and make a positive battery connection.
