

Battery management system 460 kWh

Battery management system 460 kWh

The MLI Ultra batteries are equipped with a self-learning balancing algorithm that predicts the behavior of each individual battery cell and balances proactively, resulting in a faster and more efficient charge cycle. The self-learning system eliminates unnecessary stress on the cells, resulting in an even longer Battery Cycle Life.

Effortlessly recharge your lithium batteries with our versatile 14.6V DC - 110V AC - 30A Lithium Charger. Engineered for efficiency and reliability, this charger offers a seamless charging experience, ensuring your batteries are ready to power up when you need them most.

The OWL battery boasts cutting-edge LFP cells, recognized as the safest lithium chemistry available today. Complementing this, our state-of-the-art Battery Management System (BMS) ensures comprehensive Over/Under Voltage Protection, Over current Protection, and a sophisticated Thermal Management System. This guarantees secure charging and discharging across a wide temperature spectrum, fortified by a robust 300A Fuse. Whether you embrace the van life full-time or revel in boondocking adventures, the OWL battery empowers you and keeps you prepared.

If you wish to update or change your shipping address, kindly email us your revised shipping details, and we will be more than happy to make the necessary changes in our system to ensure a seamless experience for your future transactions.

Once your order is shipped, an email containing your tracking number and a convenient link to monitor your package's journey will be promptly sent to you. Keeping you informed every step of the way is our commitment to exceptional service.

We take pride in our dedicated customer service team, poised and ready to address your inquiries between 8:00 AM and 5:00 PM PST. Your satisfaction is our mission, and we're here to assist you during our business hours.

While our advanced shipping system is designed to detect any incorrect addresses, we understand that changes may arise. Feel free to reach out to us via email or phone to provide us with any updates or corrections to your address. Your convenience is our priority, and we're here to assist you promptly.

We proudly ship to USA Mainland addresses. Due to the hazmat nature of our batteries, we are currently unable to facilitate international shipping. However, for our international customers, we do offer the flexibility for buyers to arrange their own shipping to their desired destination country. Your convenience and satisfaction remain at the forefront of our service.

As some of our packages may exceed standard shipping dimensions, your order may arrive in multiple

Battery management system 460 kWh

packages. To streamline your tracking experience, we provide a Master tracking number, with each individual package's tracking number conveniently attached for your reference. Your order's safe and efficient delivery is our top priority.

The Roamer 460SMART4 is our 4th generation flagship LiFePO4 battery - designed for high power users and those looking to spend extended periods off grid. New Grade A+ matched cells have exceptional power density, and provide a huge amount of capacity and power in a compact case. For Plug-and-Play integration with Victron GX monitoring, please add the CANbus-link cable. Multiple battery orders will receive a free Battery-link cable automatically.
