

Battery monitoring system 10 kWh

Battery monitoring system 10 kWh

With regards to compatibility, AXE LV battery system can be used with all Growatt's SPF off-grid series inverters and works along with the single-phase SPH and SPA series storage inverters. At Alternergy, we are only selling the system with single-phase SPH and SPA inverters.

For daily use and maintenance, Growatt provides a whole-system warranty including the battery system and storage inverters. Additionally, Growatt allows installers to upgrade the firmware of the battery system remotely, which can help reduce the O& M cost and improve service efficiency.[Read more](#)[Brand Growatt](#)

The sonnenBatterie does not only store energy, it's smart. As an intelligent, backup capable, energy storage system, sonnenBatterie 10 can integrate into any existing PV system on the market. Gain your energy independence now and secure yourself against future energy price increases.

It depends on which size of system you choose. A sonnenBatterie 10 can be sized either as an 11 kWh or 22 kWh unit. This means that you can size the system to suit your needs and you won't have to worry about future energy demands, because you can simply add more capacity at a later date.

The sonnenBatterie comes with a market-leading warranty of 10 years or 10,000 charge cycles, and a battery service life of 20 years. The performance guarantee states that the battery will be not less than 70% of its installed capacity after 10,000 cycles. This is a market-leading warranty which is founded on the superior battery chemistry that we use in the sonnenBatterie to give a longer service life.

The sonnenBatterie 10 is available as an AC connected system, allowing for a seamless integration into any existing solar PV system. However, we have a sonnenBatterie hybrid which is our DC system for homes that are thinking of installing new solar panels.

The Model 10kwh lithium battery EG Solar 48200 is designed for small home energy storage system . However, it allow to add more modules to increase the capacity. Simply connect with solar panel and convertors. It's a simple products just ready to power on any small project.

EGbatt Solar focus on product quality, has many years of experience in providing solutions services in energy storage application industry. We dedicated to designing and manufacturing of LiFePO4 and lithium cells and integrated battery packs for energy system. strives for quality excellence in the production of battery solutions.

We dedicated to designing and manufacturing of LiFePO4 and lithium cells and integrated battery packs for energy system's battery solutions is manufactured in strict accordance with relevant national standards. Every detail matter in the production. Strict cost control promotes the production of high-quality and priced-low product. Such a product is up to customers' needs for a highly cost-effective product.

Battery monitoring system 10 kWh

Li-ion cells should always be used with a protection circuit to prevent the cell from over charging or over dis-charging. Choosing the correct circuit and applying it appropriately is vital to the longevity your batteries and your own safety. EG Solar test each Cells and BMS/PCB/PCM before manufacturing and promise it is functional and safe.

BMS / PCB / PCM is the “heart” of Lithium battery pack. BMS (Battery Management System) is any electronic system that manages a rechargeable battery (cell or battery pack), such as by monitoring its state, calculating secondary data, reporting that data, protecting the battery, controlling its environment, and balancing it.

EG SOLAR is the leading Supplier for Rechargeable Lithium type batteries. EG SOLAR is your best battery partners. No matter you are looking suppliers as Lithium battery manufacturing, or you need sell a realiable brand Lithium ion batteries. EG SOLAR is here ready to help.
