

Battery university lifepo4

Battery university lifepo4

Welcome To Battery University Battery University(TM) is a free educational website offering hands-on battery information. The tutorials evaluate the advantages and limitations of diverse battery chemistries, advise on best choices, and suggest ways to extend life.

The information is compiled from the manufacturer's specifications, test labs and crowdsourcing. The tutorials differ from scientific papers by taking average readings because lab tests cannot always be repeated in real life. Battery University(TM) is sponsored by Cadex Electronics Inc.

The material on Battery University is based on the indispensable new 4th edition of "Batteries in a Portable World - A Handbook on Rechargeable Batteries for Non-Engineers" which is available for order through Amazon .
