energy infrastructure, increase access to modern energy services for marginalized communities, and mobilize finances to meet the demands of a dynamic energy landscape. As we unveil the 2022 Belize Annual Energy Report, we extend our gratitude to all stakeholders

The purpose of the Public Utilities Commission is to regulate the electricity, water, and telecommunications sectors in Belize to efficiently provide the highest quality services at affordable rates, ensuring the viability and sustainability of each sector.

Service under this rate is available for all single-phase, 120/240 volt, domestic purposes in an individual private dwelling or an individual apartment and is subject to our Terms and Conditions.

The Power Cost Adjustment and NYPA Hydro Power Adjustment Clause are incorporated in monthly bills along with the charges above. Subject to billing period and Terms and Conditions. Please see below for information regarding these items.

Note: A pilot program was available to a limited number of customers (150) from January 1 – December 31, 2022. The Municipal Light Board voted to open the rate to an additional 150 customers (for a total number of 300) on a first-come, first-served basis, starting on December 1, 2023. At this time, Belmont Light is accepting customers on a rolling basis for the rate.

Single-phase 120/240 volt customers in individual, private dwellings or individual apartments may elect to take service under this rate for domestic purposes. To join this rate, customers must apply to Belmont Light and have an advanced meter capable of interval billing installed. Service under this tariff is subject to Belmont Light's Terms and Conditions.

Pilot Rate A TOU customers with an approved, interconnected EFR Facility, as defined by Belmont Light's Policy on Emission-Free Renewable Energy Facilities, at their private dwelling will be compensated under this tariff for all kWh received by Belmont Light's distribution system.

In summer months, on-peak periods begin at 1:00 p.m. and end at 7:00 p.m. each day, including weekends and holidays. All other hours in summer months are designated off-peak. In non-summer months, on-peak periods

Belmopan electricity rates

begin at 4:00 p.m. and end at 8:00 p.m. each day, including weekends and holidays. All other hours in winter months are designated as off-peak.

Service under this rate is available for all single-phase, 120/240 volt, domestic purposes in an individual private dwelling or an individual apartment and subject to our Terms and Conditions.

Eligibility for this rate is based on economic need and is based on a customer's eligibility for the Low Income Home Energy Assistance (LIHEAP) Program, administered by Community Teamwork. Applications to demonstrate economic need must be submitted annually. Please visit Community Teamwork's LIHEAP page for more information and to apply.
