Best portable fishing depth finders

Advertising does not influence our gear reviews and it never will. While we always focus our coverage on standout products--because we want our readers to be aware of the latest and greatest gear--we also cover the flaws and quirks of any given product.

. Long gone are the days of putting around a lake and looking for clues as to where the fish might be. Modern fish finders show fish, depth, and structure at just about every angle imaginable. With the increase in technology comes an increase in options for anglers.

Offerings range from basic depth finders to 360-degree fish finders pinpointing entire schools of fish. Is this cheating? It depends on who you ask--but I personally am a big fan. To better understand this technology, I took to the water with every configuration available to find the best fish finders for anglers, whether you're kayak fishing, ice fishing, or heading out on the open seas. Next time you're on the water and can't find the fish, it might be time to consider one of these from Simrad, Humminbird, Lowrance, and Garmin.
