## Boat battery system

The Aquaflex battery range benefit from their robust casings and maintenance free design which makes them ideal for water craft. The Aquaflex range have been especially manufactured to cope with marine applications. With very low self-discharge, high cranking and excellent recharging time. These batteries are suitable for deep discharge applications giving outstanding performance!

Aquaflex WET Technology - wet lead acid - have excellent deep cycling capabilities with slower discharge rate than that of AGM batteries and are often cheaper which make them ideal leisure applications.

Lion 44477613L maintenance-free 12V battery suitable for general purpose domestic/leisure caravan, motorhome and boat applications, can also be used for engine starting. No maintenance to electrolyte levels required. Lion 120 Ah fit-and-forget flooded lead-acid battery with twin terminals.
