

Building energy solutions

Building energy solutions

The U.S. Department of Energy's Better Buildings Solution Center is the place to find proven and cost-effective energy and water efficiency solutions by barrier, building type, sector, technology, and more. Browse for Showcase Projects that demonstrate how our partners are reducing energy or water use by 20% or more in buildings and plants across the country. Discover Implementation Models which highlight the innovative strategies partners use to overcome barriers to building efficiency.

Check out our informational portals on renewable energy, workforce development, resilience, waste reduction, water and energy savings, and more. With over 3,000 solutions and resources, the Solution Center is sure to help you tackle your energy challenges.

Commit to the Better Buildings Challenge, participate in an Accelerator program, or join the Alliance. Whether you are a building owner, manager, or operator, there is a program that will fit your needs.

Get involved in energy management conversations with your peers by attending our events, watching webinars, and getting free training resources on energy efficiency projects.

Find solutions shared by Better Buildings partners that helped bolster their bottom lines, advance technology innovation, create jobs, and spur energy efficiency investments. Search for solutions by keyword or topic, and use the filters to refine your results.

As an experienced system integrator we help you to make your buildings more secure, more efficient, and more comfortable. At Bosch Energy and Building Solutions 8,000 associates are working for you worldwide. Our exceptional team develops, implements and manages building solutions, combining an excellent customer orientation and technological expertise with a high level of enthusiasm. Your business and buildings benefit from comprehensive expertise, global experience and state-of-the-art technologies - all from one single source and close to you.

Inspiring project stories, interesting background information and exciting interviews: Together with customers, partners and experts, we share insights and outlooks around digitalization & automation, safety & comfort, efficiency & sustainability and people & partnerships.
