Byd energy storage 60 kWh

LAKESIDE, CALIF. (2/23/2022) — Energy Toolbase, a leading provider of energy storage software solutions, has commissioned a behind-the-meter energy storage project with HES Solar, a San Diego-based, full-service solar development and installation company. HES Solar installed a BYD Chess energy storage system, integrated with Energy Toolbase's Acumen EMS controls software, alongside a SunPower solar photovoltaic system for a Fortune 100 food and beverage industry client.

Energy Toolbase provides a cohesive suite of project modeling, storage control, and asset monitoring products that enable solar and storage developers to deploy projects more efficiently. HES Solar and the host customer will have full visibility into the solar and storage operation via the ETB Monitor platform, which provides a secure, web-based portal for the customer to view real-time system performance, bill savings, as well as create alerts, schedule dispatch commands, and override events.

"I consider advanced control capabilities to be the core competence of a competitive energy storage software company," said Michael Liu, the Senior Director of Energy Storage at BYD. "Energy Toolbase and HES Solar have been great partners to work with, and we are optimistic about deploying many more energy storage systems together in the future."

Energy Toolbase is an industry-leading software platform that provides a cohesive suite of project estimating, storage control, and asset monitoring products that enable solar and storage developers to deploy projects more efficiently. Energy Toolbase's SaaS products are used by over 1,000 distributed energy organizations worldwide. To learn more or request a free trial, visit <https://>

Energy Toolbase is backed by its parent company, Pason Systems, a leading global provider of data management systems and controls automation software for the energy industry. With a global footprint and 40-year track record, Pason enjoys one of the strongest balance sheets in the industry and trades on the Toronto Stock Exchange under the symbol PSI. The Official Sponsor of Mother Nature's, BYD, which stands for Build Your Dreams, is the world's leading electric vehicle company with proven innovative technology for cars, buses, trucks, forklifts, and rail systems - like SkyRail. BYD is dedicated to creating a truly zero-emission ecosystem offering technology for solar electricity generation, energy storage to save that electricity, and battery-electric vehicles powered by that clean energy. BYD has 220,000 employees across the globe, including nearly 1,000 in North America. For more information, please visit

Tamara Berríos, Country Manager of BYD Chile, said Chile, one of the countries with the largest lithium resources globally, plans to meet the increased global demand for lithium. Chile's lithium production will help future growth of clean transportation technology and fight climate change.

"We have promoted clean public transportation with electromobility for years and have introduced the first pure electric bus fleet with lithium batteries in Chile to achieve its zero-emission goals," Berrios said. "We hope to contribute to the local lithium market with 27 years of experience in battery technology. Our R& D in the battery industry will strengthen Chile's sustainable and innovative development, both for its national mining industry and the different communities in the country."

The Official Sponsor of Mother Nature, BYD, the world's leading electric vehicle company, is dedicated to creating a "total solution." Globally, BYD has committed to corporate social responsibility, deeply monitoring our supply chain in terms of human rights, environmental safety, hazardous substance control and intellectual property rights. We only select suppliers who share our commitment to just labor practices, human rights standards and the environment. For more information, please visit <https://en.d/> or follow BYD on LinkedIn, Twitter, Facebook and .

LOS ANGELES, Calif. (5/20/2021) - The U.S. Secretary of Transportation recently announced \$1 billion will be available through the competitive Rebuilding American Infrastructure with Sustainability and Equity (RAISE) program. And, BYD stands ready to assist with application information.
