[Click here for details.](#) Whether you need a versatile stage keyboard, a songwriting partner, or simply a go-anywhere compact piano, the CT-S500 portable keyboard delivers the sound and features you'd expect on an instrument costing much more. The CT-S500 covers the essentials of a portable piano, but goes far beyond the basics with a huge variety of stunning Tones and Rhythms, plus a full suite of editable DSP effects with real-time control.

CT-S500 features 61 full-size keys, similar to what you'd find on any other Casio compact piano. True to its nature as a Casiotone portable keyboard, it also has great-sounding built-in speakers and optional battery power for true portability. Once you start to explore, however, you'll quickly find that the CT-S500 is one of the most capable and powerful portable keyboards ever made.

The Casiotone CT-S500 delivers studio-quality sounds and features in an ultra-portable, easy-to-use keyboard that is always ready to inspire. Smart and customizable, the CT-S500 is ready to bring your music to life at home, on stage, in the studio, or anywhere else.*Includes power supply, WU-BT10 Bluetooth MIDI & audio adapter, and music rest.

The CT-S500 features 61 full-size touch responsive keys in a sleek, stylish case that weighs less than 10 pounds, with an easy-to-read LCD display and intuitive controls. Use the pitch bend wheel and modulation knob to add natural (or supernatural) expression to your playing, and use the 2 assignable knobs to tweak EQ, filter, effects, and many other settings on the fly.

The 243 full-accompaniment Rhythms in the CT-S500 make it a perfect jamming partner. Simply play a few notes, and it can create an entire backing band that reacts effortlessly to the way you play. No matter what kind of mood you're in, your Casiotone is always ready to back you up with vibrant acoustic drums, vintage drum machines, global percussion instruments, rock-solid basslines, horn ensembles, rhythm guitars, and much more.

The CT-S500 makes it easy to create your own signature sounds. You can layer, split, and customize the versatile DSP effects, then save your setups as Registrations for easy recall at the touch of a button.

There are four ways to experience the CT-S500's amazing sound quality at its best. First, the bass-ported stereo speaker system delivers eyebrow-raising punch and clarity throughout the entire volume range. Second, plug in a good set of headphones for personal play. Third, connect the 1/4" line outputs to any amplifier, PA system or mixer. Fourth, push the SURROUND button, and the speakers will place you right in the middle of your music.

The microUSB port connects your CT-S500 to any PC, Mac, iOS or Android device with no drivers or
