## Commercial solar ghana

B-X Squared Solar Systems Limited, is a leading solar power company in Ghana. Its main aim has been to promote the patronage of renewable energy and ensure the optimum utilization of the energy from the sun.

At B-X Squared Solar Systems Limited we give you the best of advice, technical expertise and customer services throughout your encounter with us, because we are as passionate about clean energy power as we are with delivering the best service to our customers.

At B-X Squared Solar Systems Limited, technical knowledge, skill with quality products and commitments are the key factors leading us to enhance our customer database. Market knowledge, dedicated and well-trained professional teams have given us the opportunity to operate as one of the best source in solar solutions for domestic, community, industrial, water pumping and street lights (Solar and Grid powered).

Here at B-X Squared Solar Systems we provide you with an optimized, clean, affordable and reliable solar systems to power your homes; our specialty ranges from and are not limited to solar panel, battery installations, inverter installations etc. for residential, industrial and commercial clients across country and Africa. With our expertise and commitment to sustainability, you can call us your trusted energy experts to help you harness clean power from the sun.

Here at B-X Squared Solar Systems we sell tier 1 solar products; you can get high quality off-grid, hybrid and grid-tied inverters, solar panels, Solar Charge controllers, cables, mounting rails, Solar batteries etc.

I must commend B X for their professionalism in installing a 40kw Grid tied Solar system these past months for my company., before that I was spending tonnes of money on my power plant and other sources of electricity. It's been 4 months already but I'm really saving a lot of money already. Thank you for the good work done.

We have designed the most robust and affordable solar energy solutions based on years of company research for on-grid customers to save energy and maintain uninterrupted power. Our solar installations are remotely managed to provide best in class customer service.

In this century, man must migrate from his dependence on fossil fuel to renewable energy. We are a pioneering renewable energy company building trust and creating value for African citizens and societies by addressing the pervasive perils of climate change on daily lives and reversing the damages caused by the exploitation of non-renewable energy resources.

We believe that through innovation in clean technology and finance, we can stabilize the African grid, accelerate access to energy for all on the continent and create thousands of jobs especially for women. We
