

Cool things to do with old batteries

Cool things to do with old batteries

Explore the world of chemistry with these fun battery experiments for kids! Create simple circuits, a simple powered motor, and a "robot"; from one of science's greatest inventions!! Your science loving kiddos, from Kindergartners, Grade 1, grade 2, grade 3, grade 4, grade 5, and grade 6 will love these battery experiments!

Did you know the invention of the battery dates back to the late 1700's? Yep, this simple to understand TED Talk shows how the invention of the battery all started from a disagreement from two men and a frog! Take a moment to watch and check out various other sites to learn more about batteries!

Whether you are a parent, teacher or homeschooler; you will love engaging students curiosity and teaching them science with these fun science fair projects with batteries. These are fun science projects for kids from kindergarten, first grade, 2nd grade, 3rd grade, 4th grade, 5th grade, and 6th grade students.

Which Battery Last the Longest? | Don't we ALL want to know the answer to this question?! Set up a science experiment testing several different batteries. Then make sure you come back here and comment your findings!!

Super Simple Circuit | No need for fancy wires and tape, What do We Do All Day? shows you how easy it is to make a simple circuit using household materials. This is a great battery experiment to help kids tinker and explore electricity.

Dirt Battery Science Experiment | Did you know you can make a battery out of dirt? Me neither! Check out Teach Beside Me for a great visual "how-to"; for this battery experiment for kids.

Battery Powered Traffic Light | Move beyond simple circuits to make a traffic light with aluminum foils switches. This cool battery experiment would be great for older kids! Potato Battery Science Experiment | Try this cool battery science experiment from STEAM Powered Family, using a potato to light up an LED battery! That is a lot of energy!

Looking for lots more fun, science experiments for kids? You've GOT to try some of these outrageously fun science experiments for kids! We have so many fun, creative and easy science experiments for elementary age children:
