

# Custom box electronic

Custom box electronic

Protocase manufactures fully finished custom electronic enclosures and associated parts from a wide variety of materials and components, in 2-3 days with no minimum order. Protocase also provides expert and affordable enclosure design services.

Protocase is a custom sheet metal enclosure manufacturer providing a 2-3 day turnaround, with no minimum orders. Offering the highest level of quality in custom fabrication, we build enclosures of all styles, including rackmounts, U and L shapes, consoles and consolets, and fully custom designs.

Our enclosures are fully finished, meaning you can include hardware, fasteners, brackets, hinges and accessories. You can also customize your enclosure with a variety of in-house finishes, including powdercoat, direct digital printing, grained finish and permanent marking. There are no minimum orders, and we'll build anything from prototypes and one-off designs, right up to high-volume manufacturing runs that take advantage of our blanket order program.
