Dodge ram plug in hybrid

Meet the electric truck that is set to push boundaries. Crafted with an eye-catching, distinctly Ram Brand exterior design, and equipped with distance-defying electric capability--the All-New Ram 1500 Ramcharger is the World's First-Ever Range-Extended Full-Size Electric Pickup Truck.

The All-New Ram 1500 Ramcharger delivers innovative performance with a liquid-cooled 92-kilowatt-hour battery pack paired with a 130-kilowatt generator. The 3.6L Pentastar(R) V6 engine generates mechanical power, which is converted to electrical power by the onboard generator for maximum efficiency. The generator can also increase the power to the motor and gearbox when serious power is needed.

Translation? The All-New Ram 1500 Ramcharger offers More Range, Towing and Payload than any Electric Pickup Truck in its Class and is set to be a game changer in the world of electric pickup trucks.

Don't overthink it--the All-New Ram 1500 Ramcharger makes charging quick and easy with an easy-to-use quick-release mount featuring a lockable, weatherproof enclosure. The truck comes equipped to handle three different levels of charging. It is compatible with Level 1, and available Level 2 charger at 240 volts and Level 3 charger at 400 volts. Add up to 50 miles of all-electric range in just 10 minutes with 400-volt DC fast charging at up to 145 kilowatts.

For public charging, Ram Brand customers can use the Free2move Charge App, an all-in-one solution providing access to a large network of public charging locations (both Level 2 and Level 3 DC Fast Charge). Through the Free2move Charge App, Ram Brand vehicle drivers can locate, activate and pay for charging sessions.

A first-of-its-kind feature for the Ram Brand, One Pedal Driving Mode brings efficiency to the forefront. When easing off the accelerator, the regenerative braking system kicks in as the truck gradually slows down and captured kinetic energy recharges the battery. By regulating the output of the electric drive motors, this feature helps provide added peace of mind.

Get access to EV-specific information like flows, battery and energy levels, charging locations and more via the Driver Information Digital Cluster Display, the Uconnect(R) 5 system and the available Head-Up Display. See your stats clear as day with full-color 3D graphics so you can power forward with confidence.

Manage your truck's energy and performance. Select between Electric Mode, E-Save Mode, and Eco Mode, and additionally choose Charge-Depleting Mode, Battery Hold Mode, eAWD Mode, or eSport Mode to optimize energy consumption and to enhance vehicle performance.

Choose your entertainment, view navigation and customize your comfort via the available 14.5-inch

Dodge ram plug in hybrid

Uconnect(R) touchscreen. Its backlit surface responds to your command--just by using your fingertip--connecting you to information and entertainment.

Mounted seamlessly and conveniently on the passenger dash, the available 10.25-inch Passenger Interactive Display provides information and entertainment for your copilot. The front passenger can use this touchscreen to stream shows, watch movies during a trip and listen to favorite music via the Uconnect(R) 5 system.

Keep your smartphones and devices charged up while on the go. The All-New Ram 1500 Ramcharger features Class-Exclusive available dual wireless charging pads in the truck cabin for both driver and passenger convenience.

The all-new Tungsten is the most Luxurious Ram 1500 ever. It offers new features like 22-inch aluminum wheels, Best-in-Class available premium leather 24-way power adjustable front seats with heat, ventilation, memory and massage and a Klipsch(R) Reference Premiere Audio System, the Most Powerful Available Audio System in its Class.
