

Energizer aa batteries

Energizer aa batteries

Energizer Max Plus AA batteries reign supreme in long-lasting power. These Energizer alkaline batteries outperform the rest, keeping your favorite devices running for extended periods.

Perfect for powering wireless controllers, musical instruments, motorized toys, remote controls, and computer mice, Energizer Max Plus AA batteries are versatile and dependable. They boast an impressive 12-year shelf life, so you can buy in bulk (this pack contains 50 batteries) with confidence, knowing they'll be ready when you need them. Leak-resistant construction provides added protection for your valuable electronics, offering peace of mind.

All our orders are dispatched via courier networks and do not travel via parcel post. The parcel rate charges are often amplified for orders in excess of 15kg from all the couriers we use. As a result we have to reflect this in the delivery charges we make to our customers. Orders that contain products which at dispatch will be more than 20kg weight will be subject to a Heavy and Large delivery charge.

Products likely to be impacted by this higher rate parcel send are: boxes of paper, multiple quantities of water, desk stands or furniture and volume packs of cleaning supplies. This higher rate carriage charge will be indicated in your basket as a heavy or large delivery charged at ?8.95.
