

## Energy storage policy updates sarajevo

Opening the Forum, Artur Lorkowski, Director of the Energy Community Secretariat, said: "A participatory process, involving a wide range of stakeholders, must be at the heart of a just transition to a climate neutral economy by 2050. Today's multi-stakeholder event will increase the momentum for the adoption of 2030 energy and climate targets for the Energy Community and its Contracting Parties by the end of this year."

Keynote speeches were delivered by H.E. Zorana Mihajlović, Deputy Prime Minister and Minister of Mining and Energy of Serbia, and Clara de la Torre, Deputy Director-General, DG Clima, European Commission. The first panel featured interventions by ministers, deputy ministers and state secretaries of coal-dependent Contracting Parties &#8211; Bosnia and Herzegovina, Kosovo\*, Serbia, North Macedonia and Ukraine.

Speaking at the high level panel, H.E. Petar Đokić, Minister of Energy and Mining, Republika Srpska, said: "The energy transition requires an inclusive process considering the needs of local communities, especially in coal regions which will be affected most by the energy transition. Today's Just Transition Forum provides an excellent opportunity to gather all relevant stakeholders to discuss the challenges and opportunities ahead of us."

H.E. Nermin Džindić, Minister of Energy, Mining and Industry, Federation of Bosnia and Herzegovina, said: "The clean energy transition needs to focus on fairness, jobs and boosting the welfare of all citizens. We need to work together with our Energy Community partners to accelerate the just energy transition by designing climate and energy policies that directly benefit citizens. It is fundamental to engage with all stakeholders to build trust and secure their buy-in for the energy transition process."

Civil society representative and chair of the high level panel, Chiara Martinelli, CAN Europe, stressed: "Only in partnership can we tackle climate change, energy insecurity and loss of biodiversity, towards a fossil free future. European civil society organisations are resourceful and motivated to ensure effective implementation of the decarbonisation roadmap. To this end Europe's political leaders and policy makers should make sure the process is transparent and participatory, with action plans that are credible, time specific and inclusive."

Brussels, 31 October 2024 &#8211; Ahead of the Commissioner Hearings, CAN Europe calls on incoming Commissioners-designate to prioritise urgent and ambitious climate action. With the EU way off track to meet its

As the new European Commission and Parliament begin their mandates, over 40 civil society organisations from across Europe have issued a statement calling on EU leaders to ensure the continuation of the Just Transition Fund in the next EU budget.

Brussels, 3 September 2024 &#8211; As European Commission President Ursula von der Leyen prepares to announce the designated Commissioners and the mission letter for the new energy commissioner, CAN Europe is

CAN Europe empowers civil society organisations to influence the design and development of effective climate change policy in Europe, both in the European Union as well as in its Member States and in European countries outside the EU.

&#8216;Taking Action on Energy Transition in Bosnia and Herzegovina&#8217; conference gathered today representatives of the authorities, experts from the public and private sectors, as well as international representatives and representatives of civil society who will consider how 2023 can be a year of action in the direction of energy transition following the European Green Agenda for the countries of the Western Balkans.

President of the Green Club and MP in the House of Representatives of the BiH Parliament Sa?a Magazinovi? said at the opening of the conference that decision-makers in BiH should not be afraid of unfamiliar concepts such as decarbonization, just transition, Sofia Declaration, green agenda, and energy transition.

BiH Minister of Foreign Trade and Economic Relations Sta?a Ko?arac pointed out that in terms of decarbonization of the energy sector, our most important activity is the preparation of the Integrated Energy and Climate Plan of BiH for the period up to 2030.
