

FindTape com

FindTape com

We specialize in offering great pricing and a painless shopping experience that features hundreds of unique products. From industry-standard gaffers tape that provides exceptional performance in demanding environments to colorful duct tape that can be used for everything from arts and crafts projects to cable anchoring, FindTape has all of the essential tapes for industrial, commercial and crafting applications. In fact, we've developed a range of tools to help you find the ideal tape for your needs.

FindTape has a unique advantage over any other tape retailer: we do our best to ensure that all of our customers find the right product to suit their individual demands and applications. We pride ourselves on supplying the best resources and information in the field. For example, FindTape always offers clear, up-to-date photography of the products we sell online plus in-depth and accurate descriptions. Buy your next roll or case at FindTape to see why we've built a loyal following.

Formed in 2003; and with more than 7,400,000 rolls of tape sold since 2004; FindTape has quickly become the preeminent online source for tape, glues/adhesives, and dispensers. Nowhere else on the World Wide Web will you find such easy ways to locate the product you are looking for including keyword search; browsing our hierarchy of product types and departments, and finally by utilizing our advanced product finder tool.

Begun in the attic office of a Princeton duplex by a guy who likes maps and a former film and television set designer, it has been widely acclaimed by the IT press for its ease of use and visual appearance. Online tape sellers like WherecanIbuytape , doyouknowagoodplacetobuytape , and whatIwouldntgiveforsomegaffertape have quickly taken notice of the upstart company that is taking the world of online tape selling by storm.

The 3M Company, originally founded in 1902 as a mining and manufacturing company, is an American corporation based in Maplewood, Minnesota. Richard G. Drew, a lab assistant in 1925, invented masking tape, which was a critical step towards 3M's diversification and first of many 3M Scotch pressure sensitive tapes. Of the more than 55,000 products the company produces, 3M Industrial Adhesives and Tapes and Hardware Divisions offer more than 400 varieties of tape and other spray adhesives, glue, dispensers and laminators.

3M's subbrands include, but are not limited to, Ace, Bondo, Command, Diamond Grade, Filtrete, Futuro, Nexcare, Peltor, Post-It, Safety-Walk, Scotch, ScotchBlue, Scotch-Brite, Scotchgard, Stamark, and Trizact.

ACCO started as a modest school and office products company. Now, ACCO Brands is a dynamic global consumer- and end-user-focused company. They create products and solutions to help consumers learn and create, play, organize and store, and enable technology at home, at the office and everywhere in-between.

For the last 100 years, families have grown up with an ACE Brand bandage. It is a staple of people's lives that they are exposed to early on and can be used for a variety of purposes throughout life. The name ACE--which

FindTape com

stood for All Cotton Elastic--was chosen in 1918 after a nationwide contest was held that offered physicians a chance to win \$200 for coming up with the best name for the new bandage. ACE products are designed for support and comfort. A brand of 3M.
