Ge renewable energy grid solutions

Salzbergen, Germany, February 14, 2023 - GE Renewable Energy announced today that it has been selected by German company wpd to supply 16 onshore wind turbines to three wind farms to be built in Landkreis Uelzen, Niedersachsen, 100km south-east of Hamburg. With a total installed capacity of 88 MW, the three projects will operate GE's 5.5 MW turbines with a rotor diameter of 158m. The agreement also includes a 15-year full-service contract with an extension option of another 5 years.

Paris, FRANCE, and Stuttgart, GERMANY -- December 15, 2022 -- To continue operating the power grid safely and reliably in the future, GE Renewable Energy. For media inquiries, please contact:
