

Golf cart batteries 48v system

Golf cart batteries 48v system

Keep your lithium batteries powered up with our efficient 50.4V DC - 110 VAC - 17A Lithium Charger. Designed for dependable charging, this charger ensures your batteries are always ready to provide a reliable power source for your diverse applications.

Compare our lithium battery kits, available in configurations of 1, 2, 3, and 4 units, to find your ideal power solution. Explore their range of amp hours (Ah) and kilowatt hours (kWh) to make an informed decision.

Introducing our latest innovation, the most compact golf cart solution we've created! Don't be fooled by its small size; the BADGER delivers strong reliability, efficiency, and a significant capacity to power your cart. Equipped with high-quality lithium-ion cells, a 63A Safety Breaker, and our advanced BMS with Thermal Management System and comprehensive safeguards, the BADGER has the confidence to easily replace - and even outperform - any 48V lead-acid alternative.

Surprisingly lightweight at only 36 lbs/kWh and priced the lowest, the BADGER is the lightest and most cost-effective 48V lithium golf cart solution available today. With a 2C Discharge Rate and the ability to handle high discharge currents, the BADGER ensures your battery system is used efficiently. Take your cart to the next level with the BADGER!

Please Note: A single BADGER battery isn't enough to power a golf cart by itself. The individual BADGER battery is designed for various power enhancements offered by the BADGER Kit. To find the right battery kit, compare the Continuous Power specifications of the BADGER kits with your motor and controller. Using the battery beyond the specified limits will void the warranty.

If you wish to update or change your shipping address, kindly email us your revised shipping details, and we will be more than happy to make the necessary changes in our system to ensure a seamless experience for your future transactions.

Once your order is shipped, an email containing your tracking number and a convenient link to monitor your package's journey will be promptly sent to you. Keeping you informed every step of the way is our commitment to exceptional service.

We take pride in our dedicated customer service team, poised and ready to address your inquiries between 8:00 AM and 5:00 PM PST. Your satisfaction is our mission, and we're here to assist you during our business hours.

While our advanced shipping system is designed to detect any incorrect addresses, we understand that changes may arise. Feel free to reach out to us via email or phone to provide us with any updates or corrections to your

address. Your convenience is our priority, and we're here to assist you promptly.

We proudly ship to USA Mainland addresses. Due to the hazmat nature of our batteries, we are currently unable to facilitate international shipping. However, for our international customers, we do offer the flexibility for buyers to arrange their own shipping to their desired destination country. Your convenience and satisfaction remain at the forefront of our service.

As some of our packages may exceed standard shipping dimensions, your order may arrive in multiple packages. To streamline your tracking experience, we provide a Master tracking number, with each individual package's tracking number conveniently attached for your reference. Your order's safe and efficient delivery is our top priority.

They shipped fast from California Customer service answered all my questions in 24 hrs Using it on a EZ-GO TXT 48 Volts Installation was plug and play (do not disconnect the old charger input to cart or it will think the charger is in use and cart will not work) If you have 12 Volts lights and other accessories, you will need to buy a voltage reducer regulator which is not a big deal to install I also Installed a Main Switch to completely disconnect the cart from battery to eliminate and residual parasitic discharge
