

Greece energy storage systems

Production licenses for the PTOLEMAIDA BESS and ARCADIA BESS projects by EUNICE ENERGY GROUP (EEG) have been approved by the Energy Regulatory Authority (RAE).

The Greek EUNICE ENERGY GROUP (EEG) announces that the issuance of production licenses has been approved by the Energy Regulatory Authority (RAE) and is moving on to immediately implement its two emblematic projects for rapid response energy storage.

The two projects in Ptolemaida and Megalopoli, each with similar capacity of 250MW/1000MWh, constitute flagship investments ushering in the new era of transformation of Greece and Europe in terms of development, economy and energy, given that:

The Greek EUNICE ENERGY GROUP (EEG) invests, innovates, participates and develops synergies in the frontline of the European and international technological and investment initiatives of energy transition. With specific projects in the field of energy innovation, Greek know-how and added value, it implements national and European goals, reducing the carbon footprint and supporting the dynamic development of production and storage projects for RES energy.
