A 10-megawatt supercritical carbon dioxide (sCO<sub>2</sub>) turbine, about the size of a desk, could power up to 10,000 homes. It promises to be much cheaper and 10% more efficient than current steam turbines.<https://bit.ly/45baymj>

US firm unveils game-changing small nuclear reactor that can power 300,000 homes "This is a game-changer technology," says Westinghouse CEO. "If the AP1000 had been in operation at Fukushima, it would have been a total non-event."

Case Studies and Applications-Pinder-Tile Learn how Pinder Tile used the Sol-Ark(R) 60K commercial hybrid inverter and L3 Series BESS to reduce \$258K in operation costs and meet decarbonization goals.

Vision Marine Secures Key Industrial Tooling to Meet Growing Demand Vision Marine proudly announces the acquisition of critical industrial tooling to support the production capacity of over 10,000 battery packs per year

Meet the all-electric Axopar Spyder 22" equipped with our E-Motion(TM) 180E ? Axopar's consumer and industry renowned Spyder model is the recipient of several awards, 2022 European Powerboat of the Year, 2021 Best of Boats International Award, and 2022 Motor Boat Awards winner for Sportboat (up to 30 feet) of the year. ?

Vision Marine Technologies is pleased to announce it has executed a production contract with Neogy, a division of Groupe Startec Energy, a French manufacturer of specialized batteries and systems. ? The batteries will be installed in 120 full systems for Vision Marine's E-Motion(TM) 180E propulsion system being offered to OEMs. The high voltage, high density, lightweight batteries enable the E-Motion(TM) 180E to perform at optimal functionality. ? ?
