Mark Honeywell founded Honeywell Heating Speciality in 1906 to develop and market his newest invention, a mercury seal generator. The company then grew and expanded through mergers and acquisitions.

Honeywell International's headquarters is located in Charlotte, North Carolina. This houses the company's corporate team members (IT legal and marketing and human resources) and Safety and Productivity and Solutions business that manufactures mobile computers, scanners, products, and gears for factory employees and first responders.

With over a hundred years of innovation, Honeywell brings its technological breakthroughs and solutions worldwide in a wide range of industries to be safer and more productive, efficient, and economical.

Honeywell is committed to building a corporate culture that drives leadership excellence through values-based decision-making and continuous improvement. Here's a list of the Honeywell executive team.

Darius Adamczyk is Honeywell International's CEO since 2017 and Chairman since 2018. He has been responsible for the company's effective capital deployment, fast organic growth, growing margins, and dynamic culture.

In September 2022, he received a Legend in Leadership Award from the Yale Chief Executive Leadership Institute in recognition of his demonstration of how aviation, technology, and manufacturing companies can be game changers in sustainability. He was previously the CEO of Metrologic, a company acquired by Honeywell.

Kevin Dehoff was named the Chief Executive Officer and President of Honeywell Connected Enterprises in May 2022. He manages the company's enterprise in software innovation, such as new business development, data analytics, Internet of Things solutions, and the company's legacy in solving its client's requirements.

Prior to this role, Mr. Dehoff was the President of the Productivity Solutions and Services division, where he oversaw the global innovation and growth of Honeywell's data capture services, computers, phones, and more.

Ben Driggs is Honeywell's President of Global High Growth Regions where he leads the company's business in international markets, including China, Central Eastern Europe, the Middle East, Latin America, India, Southeast and Central Asia, and Africa.

He was Chief Operating Officer of the High Growth Regions from 2021 to 2022. Before this role, he was Vice President of Strategic Accounts and Corporate Development from 2020 to 2021. His responsibilities include

delivering valued services and technology and handling the company's most valued customers in the oil, gas, logistics, and aerospace industries.

Sheila Jordan is the chief digital technology officer and senior vice president at Honeywell International. She brings expertise in solving complex problems concerning technology and has a keen understanding of how it adds value to a business. She determines the strategy and IT vision that leads the team's success. Before joining Honeywell in 2020, she served as Chief Information Officer at Symantec.

Vimal Kapur is the Chief Operating Officer and President of Honeywell in July 2022. His responsibility is to direct the digitalization strategic initiatives integration, and sustainability of Honeywell Accelerator, which serves as a learning tool for the company's employees. All the presidents of Honeywell's Strategic Business Units report to him.
