

## Industry and market trends north macedonia

We expect North Macedonia to record growth of 2.6% in 2023 and 3.0% in 2024, following an expansion of 2.1% in 2022. Tighter monetary conditions, negative real wage growth and still-high fuel bills will stifle private consumption. Gross Fixed Capital Formation will make the largest contribution to growth, primarily stemming from

Market research on consumer products, commercial industries, demographics trends and consumer lifestyles in North Macedonia. Includes comprehensive data and analysis, tables and charts, with five-year forecasts.

In the first quarter of 2023, more than half (17) of North Macedonia's SOEs were loss-making, reflecting a broader trend visible since 2020. This pervasive poor performance highlights structural shortcomings that lead to inefficient resource allocation and unfair competition.

GDP growth (annual %) Ease of doing business : Ease of doing business rank. Employment by sector and gender (% of total) - Agriculture - Female. Employment by sector and gender (% of total) - Manufacturing - Female. Freedom House: Civil Liberties Rating (1 = most free; 7 = least free)

BMI has a 40- year track record of supporting investors, risk managers and strategists. We help them identify opportunities and quantify risks in markets where reliable information is hard to find and difficult to interpret. This includes in-depth insight and data, and high frequency geopolitical risk indicators.

CreditSights enables credit market participants to manage financial risk better with independent credit research, global market insights, covenant analysis, and news, distilling market noise into actionable investment ideas.

Fitch Learning develops the future leaders of the financial services industry and drives collective business performance. We do this by utilizing a best-in-class technology platform and blended learning solutions that maintain the personal element of development.

We help credit, risk, and investment professionals make better-informed decisions and meet regulatory requirements, within and beyond the rated universe. We do this by providing differentiated perspectives and in-depth expertise through Fitch Credit Ratings, Fitch Ratings Credit Research, Fundamental Financial Data, and innovative datasets, all backed by transparent methodologies, accessible analysts, and workflow-enhancing analytical tools.

Sustainable Fitch delivers human-powered sustainability Ratings, Scores & Opinions, as well as Data & Research to serve the needs of fixed income investors. Our specialists uniquely deconstruct the complex issues

of E, S, and G globally.
