

Inverter 5kw 3 phase

Inverter 5kw 3 phase

For over a decade, SolaX Power has developed renewable energy products for installers across the world. SolaX Power strive to lead the way in the renewable energy revolution and provide a large commitment to research and development.

The Solax X3-Mic 5kW three phase inverter is the perfect choice for small commercial or residential applications, particularly buildings with solar panels on different sides of the roof. The inverter features two independent MPPT trackers, while the wide MPPT voltage range allows for more energy harvesting.

Inverters in this range have a resilient, IP65 rated construction, which means they can be installed either indoors or outdoors. The inverters also have a fan-less design and allow online monitoring via the SolaX Portal for optimum convenience.
