

Lincon Batteries

Lincon Batteries

Lincon Batteries is a UK manufacturer and distributor of batteries and associated products, best known for our handmade Classic vehicle batteries, however we maintain a presence in a variety of industries including automotive, bus, rail, commercial transport, agriculture, marine, military, oil & gas, recreational, public & private utilities and many more.

Since 2013 we have been part of the Shield Batteries group of companies which has its Head Office in Bishops Stortford and they have Battery Centres in Leicester, Greater Manchester (Leigh), Poole, Bishops Stortford, Yeovil and of course Lincon Batteries here in Leigh-on-Sea, Essex, as well as a state of the art warehousing and distribution centre in Stansted.

We are a robust company that adapts to ups and downs in individual industries so our customers can depend on us to be there when they need us in good times or bad. We look forward to supplying and supporting you in the future.

Our Mission: To provide an honest and trustworthy service using our experience and expertise to deliver a customer focussed solution; to always be dependable and reliable and to meet or exceed customer expectations. Working as a team, we will demonstrate a positive and proactive attitude to opportunities and challenges, while communicating with a receptive and open mind.

Highly skilled in manufacturing with a long proven track record, Lincon Batteries are renowned for delivering the ultimate quality and performance in every battery supplied. To this day, our customers trust us to deliver the best products using the best possible components.

Lincon Batteries has been manufacturing batteries in the Southend Essex area since 1908, from the glass jar variety for radios in the thirties to the latest cold start performance polypropylene cased batteries of today.

In addition we make over 50 types of traditional hard rubber cased batteries for the classic car enthusiast. All our batteries are available dry charged, making them a popular choice for export and can be dispatched by all carriers to any UK address.

The quality of our product is something in which everyone at Lincon Batteries takes a personal pride. Our long-serving, highly experienced staff, have a genuine care for every stage of production, leading to the finished battery.

Founded in 1910, in London, the Company began by producing glass jar accumulator type batteries. Manufacturing progressed through two World Wars, making hard rubber batteries, production of which continues to this day alongside modern specialist batteries.
