Lisbon energy storage technologies

Exide Technologies will showcase its innovative energy storage systems at the next Lisbon Energy Summit & Exhibition in Lisbon, taking place from May 30 - June 1, 2023. This is a great opportunity for those interested in energy storage solutions to learn more about our products and services.

Exide will present its cutting-edge energy storage systems, based on lithium-ion technology. Visitors will have the chance to see first-hand the benefits of our energy storage solutions, such as increased efficiency, reliability, and sustainability.

Exide's team of experts will be available to answer any questions and provide in-depth information. Visit us and get an inside look at the latest developments in energy storage technology and to network with industry professionals.

About Lisbon Energy Summit & Exhibition: With over 100 exhibitors, Lisbon Energy Summit will showcase new global products, solutions and technologies across the natural gas, LNG, renewables, hydrogen, energy storage and climate technologies value chains. The many features will include specialised zones on the exhibition floor and an easy access conference theatre to optimise the delegate experience.

The Lisbon Energy Summit & Exhibition, Europe's leading energy transition event, will welcome over 3,000 visitors to FIL, Lisbon, Portugal, a world leader in new energies and technological innovation on 27 - 29 May 2024. Under the theme "Creating Tomorrow's Energy System Today", Ministers, policymakers, project developers, investors and innovators will engage at a 3-day high-level strategic conference sharing insights into transitioning the E.U.'s energy system to one based on renewables and in line with the REPowerEU initiatives.
