

Lithium ion battery pack

Lithium ion battery pack

Welcome to the source for Lithium batteries in a range of sizes - 14350, 14500, 16650, 18350, 18500, 18650, 20700, 21700, 26650 - as well as LiFePO4 cells. Our selection includes protected or non-protected cells for a variety of applications, from torches and flashlights to e-bikes, e-scooters, home solar battery storage, power tools, and beyond.

We regularly perform independent product testing, including vibration, drop, electrical, mechanical, electro-magnetic and capacity testing on each model in our range that ensures our batteries will always meet the highest quality and safety requirements.

For many years, nickel-cadmium had been the only suitable battery for portable equipment from wireless communications to mobile computing. Nickel-metal-hydride and lithium-ion emerged in the early 1990s, fighting nose-to-nose to gain customer's acceptance. Today, lithium-ion is the fastest growing and most promising battery chemistry.

Welcome to our online shop based in Dorset, England. We take great pride in providing our customers with top-quality Lithium-Ion batteries and components at affordable prices.

Lithium batteries from our assortment offer you particularly high resilience even for energy-intensive devices such as digital cameras, remote-controlled cars and smoke detectors. The batteries are fully functional even at very low temperatures and are especially well suited for indoor as well as outdoor photography due to their excellent performance and endurance. The lithium technology makes these batteries lighter than regular alkaline batteries. For mobile applications this technology should be preferred.
