Mppt off grid solar kit

For those looking to power up off-grid spaces like narrowboats, shepherd huts, garages, or summer houses, Van Junkies" 430W Off-Grid Solar Kit featuring a Sharp Solar Panel and Victron MPPT Charge Controller is the ultimate solution. Designed to harness clean, renewable energy, this kit provides an efficient and reliable power source, perfect for any off-grid setup.

Victron MPPT Charge Controller - A top-tier MPPT (Maximum Power Point Tracking) controller by Victron, it optimizes energy harvest, improves battery lifespan, and seamlessly integrates with other power components.

Versatile Applications - Perfect for off-grid installations in remote settings, this kit empowers you to stay connected and powered up, no matter where your adventures or needs take you.

Van Junkies is committed to high-quality, robust, and dependable off-grid solar solutions. With expertise in renewable energy and a dedication to empowering off-grid living, our team offers technical support to guide you through installation and usage.

All orders are processed within 1-2 business days (excluding weekends and holidays) after receiving your order confirmation email. You will receive another notification when your order has shipped.

Expedited delivery can be selected at the checkout, if your order is placed before 1pm we will pick, pack & despatch the same day and send it to you on a courier 24hr service.
