## Niue electricity distribution

[pacificdata ](pacificdata ) - the Pacific Data Hub - is the central repository of open data and knowledge products about the Pacific region. Anyone can access the public data on the Pacific Data Hub. You are encouraged to search, reuse and share the data on pacificdata .

The Pacific Data Hub holds a large and diverse collection of data, data insights, publications, and knowledge products on the Pacific across key sectors, including population statistics, fisheries, geoscience, agriculture, aquaculture, energy, education, human rights, climate change, and oceans, and it continues to grow.

While the intention is for the Pacific Data Hub to become a multi-stakeholder-owned and managed platform, it is currently a product of the Pacific Community (SPC), and as such is governed by SPC's internal documents.

Niue raw electricity data. Excel dataset is extracted from the Niue Energy Roadmap and the Niue 2015 FAESP Country Profile. Data sourced by SPC from the Niue Power Cooperation for the publishing of the above documents. Captured here are the following:

installed capacity for thermal and solar (kW)peak demandfuel used for generationtotal generation, thermal ADO generation and solar station auxiliariesunits sent to the griddistribution system lossesunbilled consumptionbilled consumption for residential, commercial and government customers and totalnon-technical losses
