This dataset includes almost one million business entities and government entities registered with the System for Award Management (SAM) of U.S. General Services Administration (GSA). Each entity applying for federal awards as a prime awardee needs a registration with SAM, which allows bidding on government contracts and applying for federal assistance. Each entity is registered with unique entity ID, legal name, dba name, company division, business address, point of contacts, business types, registration date, etc.

The System for Award Management is an official website of the U.S. Government that is used to register to do business with the U.S. Government. An entity refers to as prime contractors, organizations or individuals applying for assistance awards, those receiving loans, sole proprietors, corporations, partnerships, and any U.S. federal government agencies desiring to do business with the government. Entity can also refer to a party that has been suspended or debarred, is covered by a prohibition or restriction, or is otherwise excluded from doing business with the government.
