Portable solar lights sold in ghana

Donate a light for \$20 and help communities around the world who need it most. From disaster relief to improving community health and safety, and furthering education initiatives, your donation will make a huge impact! Lightweight, waterproof, durable, and shining for hours on end, Luci is a clean, safe and affordable way to bring light to the world.

1. Buy a light through our Give Luci program. 2. Your purchase of Give Light(s) will go directly to our non-profit partners. 3. Our non-profit partners working actively on the ground deliver donated Luci lights to communities that need them the most.

When you participate in our Give Luci program by donating, you will not receive a product. Only choose this option if you would like the selected number of lights to go to our non-profit partners. Please note: Give Luci purchases are not tax deductible.

Charge• Recharges in 13 hours via sun and 1 hour via USB• Recharge via direct sunlight• Rechargeable 450 mAh Lithium Ferric battery• Overcurrent protection

“This cleverly designed little work light. It charges on sunlight, then lights up for 13 hours. It has three brightness settings, plus a flashing mode. It’s perfect for puttering around the garage or taking on road trips in case of emergency.”

Lightweight, and durable, Luci Core is the ultimate light for any toolbox, car trunk, or pack. With its compact size and weight, you won’t even know it’s there... until you inevitably need it anyway!

Left it outside charging and it got rained on- all good cause it's waterproof. Twist tie feature works great for holding light At whatever angle is best for charging in the sun. I worried that 40 lumens might be too dim for my camp kitchen but works great!

Each product sold helps us provide clean energy to people around the world who need it most. Through your participation, we are able to create positive social and environmental impact.
