Puredrive battery price

The PureStorage II Battery is a 5kWh battery module from Puredrive Energy. It uses the safest and highest performing lithium-iron-phosphate battery cells, with 1C operation, 10,000 cycles and a high charge and discharge rate capability.

Incorporating a modular design and allowing 5x 5kWh batteries to be connected together in a single system, this Puredrive 5kWh battery module provides a high level of scalability. It is also IP65 rated and boasts a simple, aesthetically pleasing design. These features combined ensures this is an ideal solar battery for domestic installations.

Puredrive Energy is a UK-based manufacturer who produce and supply an ecosystem of award winning, high quality, products with the aim of helping customers transition towards low-cost green energy including its usage, generation and storage.

Growatt now have over 1.5GW worth of inverters installed worldwide and were the first inverter manufacturer to be awarded A+ rating by Photon. They also boast the highest ever inverter efficiency ever achieved (99.06% with the 20000HE model) and are constantly striving to reach higher efficiencies across their product range.

For monitoring you can add a ShineWiFi. Please note, the Growatt Installer Code Policy is being introduced in the UK and Ireland. It means all installers will need to register an "Installer Code" for using the Growatt monitoring platform. This installer code can be provided to the end user by the installer to allow for the viewing of your devices from your installer-level monitoring account. For more information, please refer to the following document: [Growatt Installer Code policy](#)

Can end-users purchase this product to save money on the cost of a replacement inverter? Yes, of course! Simply purchase the inverter and arrange for a local qualified electrician to install the unit for you (should be a 1-2 hour call-out). By sourcing the inverter yourself, you can make a huge saving on the prices quoted by installation companies for supply and fit services.

The all new Solis 2.0kW Mini S6 Series grid-tie solar inverter has a compact and lightweight design for easy installation. It is fan-less and therefore produces minimal noise (less than 20 dBA.)
