

Renogy lithium battery australia

Renogy lithium battery australia

Multi-input for Battery Charging: Renogy DC-DC On-Board Battery Charger is designed to charge service batteries from a starting battery linked to an alternator or by utilizing solar panels connected directly to the unit, offering multiple charging options and ensuring your battery stay fully charged.

3-phase MPPT Charging Technology: With Built-in Maximum Power Point Tracking (MPPT), Renogy DC-DC On-Board Battery Charger will charge your service batteries with maximized solar power, providing 3-phase charging (Bulk, Boost and Float) to regulate the whole charging and ensure the batteries will be accurately charged at the correct voltage levels to 100%.

Multiple Protections: Renogy DC-DC On-Board Battery Charger has multiple intelligent protections includes battery isolation, over-voltage protection, battery temperature protection, over-current protection, overheat protection, reverse current protection, solar panel and alternator reverse polarity protection, guaranteeing charging safety and protecting you batteries.

Light & Small, Ready to be Set Up: With only 9.6in in length, 5.7in in height, and 3.13lbs in weight, Renogy DC-DC On-Board Battery Charger is ready to be installed and adapt to any tiny narrow installation space, resolving your concern from limited room in you vehicle.

RJ45 Communication Port Featured: Bluetooth Monitoring Ready! Exclusively available with the BT-2 Bluetooth Module accessory and Renogy DC Home App available on the IOS and Google Play Stores, you can monitor this device remotely and simply through your phone and stay constantly updated.

The Renogy 12V Battery Monitor is an excellent addition to any solar system and will eliminate the guesswork from battery usage. This 12V Battery Monitor is able to monitor the amperage flowing out of the battery bank and will give an accurate state of charge reading on the LCD screen. Improve the overall performance and longevity of your battery bank today!

The Battery Interconnect Cables are ideal for linking batteries together in a series/parallel connection. It is flexible and resistant to chemicals, oil, and moisture. Perfect as a replacement piece or spare item, these cables will provide superior performance at a great price.

Meet Renogy 12V 200Ah Core Series Battery, your trusted, one-stop solution for upgrading from Lead to Lithium. Compatible with Renogy's solar panels, solar charge controllers, and inverters, this battery delivers a seamless upgrade experience without any compatibility issues.

With a positive capacity tolerance of up to 6%, the Core series batteries provide extra power beyond their rated capacity, ensuring that you're covered during outages, hurricane season, and other emergencies. Connect

Renogy lithium battery australia

multiple batteries in series-parallel to keep your system running longer and it can be used in trolling motor.

Off-grid living can be challenging, but the Renogy 12V 200Ah Core Battery offers a true 200A battery management system (BMS), low-temp cut-off (for charging), and IP65 protection, giving you the confidence to tackle any obstacles.
