Retail store energy storage mali

Suntrace together with its partner BayWa were selected to support B2Gold during implementation of the project and provide technical expertise, such as detailed engineering, procurement support and support during construction and commissioning until completion of the project. The PV-battery system will be integrated with the existing Power Plant to ensure safe and reliable operation of the hybrid and allow fuel savings of 13.1 million liters HFO per year. B2Gold has approved \$38 million for the implementation of off-grid solar battery hybrid systems.

Established in 2011, we serve retail and commercial customers across Africa. Our business brings together the power of great brands and the flexibility of a vibrant, entrepreneurial corporate culture.

We offer the very best of Shell and Engen products and services. This includes fuels, lubricants, and a growing non-fuel retail offering for motorists, as well as tailored fuel, hybrid, and solar solutions for commercial customers.

We employ local people and serve local businesses and individuals. We want to create lasting social and economic benefits for these communities and earn their respect and trust.
