

Shipping lithium batteries by sea

Shipping lithium batteries by sea

Lithium batteries and lithium battery products will be identified as class 9 dangerous goods only when the battery capacity reaches a certain level. Some low-power products with lithium batteries are normally transported as ordinary goods, such as those with less than 10000 MA / h, which are relatively safe products with lithium batteries. Class 9 dangerous goods need to be operated in strict accordance with the specifications of class 9 dangerous chemicals whether they are stored or transported.

Vehicles with lithium batteries, such as unicycles, electric balance vehicles, electric scooters, electric bicycles, vehicles and tools with lithium iron phosphate batteries, etc.

Ancoo Technologies (HK) Co., Limited Since 2007 Ancoo is a professional battery cells distributor and battery pack manufacturer based in Shenzhen and Hong Kong of China. Cell brands: Samsung, LG, Panasoic, Murata, Molicel, BAK, Lishen, EVE, CATL, BYD, Gotion, Svolt etc. Cylindrical L...
