Power Sonic's PSL series of LiFePO₄ batteries have been designed and developed to provide a lighter, higher power and longer life solution to lead acid batteries. LiFePO₄ batteries last longer and can produce 10 times the number of cycles than a typical lead acid battery. At only 40% of the weight of the equivalent lead acid battery our LiFePO₄ range is ideal for those applications that need to be lighter and more mobile but deliver the same power.

If you know the model number of the battery you are looking for, please enter it below. Select a Battery X
Oops looks like something went wrongThe PSL-12500 is part of our PSL range of Lithium Iron Phosphate (LiFePO₄) batteries which have been engineered to offer a lighter, longer life and...

Our focused approach to exceptional end to end customer experience sets us apart from the competition. From enquiry to delivery and everything in-between we regularly exceed our customers' expectations.

Active intelligent monitoring. At The heart of every Hyper Sport Lithium battery is an integrated management system that monitors and reacts to multiple voltage, current, and temperature events to maximize performance, battery life and safety.
