The SMA Home Energy Solution is the perfect combination of high-quality equipment, smart management and exceptional service. Its modular design means that getting started is easy and allows the system to be expanded to suit your budget and requirements at any time with no hassle.

The new SMA Energy Solution has a modular structure with perfectly matched components from a single source. In addition to hardware, it features convenient solutions for monitoring and controlling via the web portal or new Energy app. You can start with the comprehensive system or a smaller solution and gradually expand it, depending on what best suits your needs and budget.

With a SMA Large Scale Energy Solution you receive a customized offering for your specific investment objectives: optimize energy yields, link energy sectors and manage them intelligently. The portfolio is supplemented by convenient service solutions. Best of all, the longevity of our equipment ensures the sustainability of your investment over a long period of time and equips you for future requirements.

SMA offers you the perfect services to reap the benefits of your PV system over its entire service life. Secure your PV system now using an extended warranty or improve your yields through regular maintenance or through the complete PV system management (Operations & Maintenance).
