

Solar drying companies ghana

Solar drying companies ghana

We are dedicated to the course of cutting down post harvest losses in the grain and seed value chain, and we are giving our all. Our dream is aimed at helping farmers increase their grain quality, attain better markets and prices, and gain enough revenue. We are passionate about this!!

We empower Ghanaian farmers through affordable mechanical drying services and solar-powered dryers, reducing post-harvest losses. Our mission is supported by collaborations with Kosmos Innovation Center, CSIR/SARI, and ACDI/VOCA.

Founded in 1987, CONA innovated the solar drying technology, which is used in many different countries to dry more than 200 different products, for example wood, coffee, fruits, medicinal herbs, biomass.
