The Ministry of Energy now invites EOIs from interested eligible firms for the Technical Planning, Design, Supply, Installation and Commissioning of Solar Power Equipment at all Government Buildings, Installations and other Public Utility Infrastructure country wide

The Solar Industry Association of Zambia (SIAZ) plays a pivotal role in the Zambian energy sector by advocating for favourable policies, promoting social awareness of solar energy, and providing access to technical and financial support to member organizations.

SIAZ engages in policy advocacy to create a conducive environment for the growth and development of the solar industry in Zambia. It actively works with policymakers and government officials to recommend and promote policies that support the adoption and utilization of solar energy. Through its efforts, SIAZ aims to create a sustainable regulatory framework that encourages investment and innovation in the solar sector

SunnyMoney Zambia (SolarAid Zambia) has been honoured with the esteemed 60 Decibels 2024 Energy Top Impact Award for Solar Lanterns. This award recognizes organizations that have excelled in driving

By pursuing our vision and mission, the Solar Industry Association of Zambia aims to accelerate the transition to a clean and renewable energy future, driving sustainable development, energy security, and improved quality of life for all Zambians

The Ministry of Energy represented by the Permanent Secretary Administration Dr. Francesca Chisangano Zyambo signed an Implementation Agreement For The 50mw Solar Plant that will be constructed By Wendit Group, In Kafue Town, Lusaka.

Wendit Group CEO Mr. Erich Horlacher, extended his deepest gratitude to the government of Zambia through the Ministry Of Energy for their unwavering support and vision in fostering a greener future for Zambia.

He also noted that the 50mw solar plant represents a significant leap forward in Zambia's energy landscape. The project will generate clean, renewable energy that will reduce reliance on fossil fuels, decrease carbon emissions, and provide a stable and reliable power supply to the region. The impact of this project extends beyond just the energy it produces; it will also create job opportunities, stimulate local economic growth, and
