

Solar lighting system ghana ptice

Solar lighting system ghana ptice

A modern and stylish take on a victorian lantern, this solar-powered post light features a sleek curved top and stunning cylindrical light fitting in a timeless black shade. Group these together or perfect on their own to illuminate any pathways, entranceways or flower beds in a warm white glow.

Standing 46cm high from the ground, this post light comes with an integrated solar panel and automated on/off lighting at dusk and dawn, so you can enjoy low-maintenance outdoor lighting with zero running costs.

Sorry if you found the video misleading. The instructions for the light which can be seen on the page below the video, contain a 'battery information section', so that informatoin is available.

We do not have a recommended height, as it depends on what you are looking to use the light for/to light up. It is worth testing it before installing to make sure it gives you the coverage you would like.

Our relationship with you, our customer, starts with a free evaluation of your site by one of our Energy Consultants. We work with you to determine your energy needs, and then recommend solutions that fit within your budget.
