## Solar manufacturers in ghana

Global warming of 1.1 degrees Celsius is leading to unprecedented climate changes, from rising sea levels to more frequent extreme weather events, impacting ecosystems and communities worldwide.

Since our inception in 2009, we've been committed to renewable energy solutions, providing high-quality solar equipment and services to thousands of homes and businesses. Together, we've helped save massive CO2 emissions.

We set out with a mission to make renewable energy accessible. We found there was a need to do things differently by advancing the know-how to realise our ambition. So we evolved with innovative ways of realising energy access through knowledge transfer.

As a women-led social enterprise, Power Sisters has affirmed high-level support for advancing gender equality on the road to ensuring universal energy access. Over 80 per cent of WIRE's board is comprised of women leaders from the finance, technology and renewable energy sectors.

We design and supply top-tier solar energy systems, focusing on reducing energy usage and fostering sustainable electricity generation. Our services extend from sophisticated solar PV systems for homes and businesses to dynamic public space lighting, ensuring every installation meets the highest standards of quality and efficiency.

Solar energy has emerged as a promising alternative source of power generation in Ghana. The country has abundant sunshine throughout the year, which makes it an ideal location for solar energy production. The government of Ghana has recognized the potential of solar energy and has been promoting its adoption through various initiatives. As a result, the demand for solar energy products has been increasing rapidly in the country.

BXC Ghana is one of the leading solar energy suppliers in Ghana, offering a wide range of solar energy products and services. The company was established in 2013 and has since been involved in the development, installation, and maintenance of several solar energy projects in Ghana. BXC Ghana is a subsidiary of the BXC Group, a multinational conglomerate with operations in various industries, including renewable energy.

BXC offers a range of solar energy products, including solar panels, solar inverters, solar charge controllers, and solar batteries. They also specialize in the design, installation, and maintenance of solar power plants, solar street lights, and solar water pumps. The company has completed several solar projects in Ghana, including the installation of a 10 MW solar power plant in Navrongo and a 5 MW solar power plant in Lawra.

In addition to its focus on renewable energy, the company is also committed to corporate social responsibility.

## Solar manufacturers in ghana

The company has initiated several programs to support local communities, including the provision of solar-powered boreholes for clean water supply and the donation of solar street lights to improve road safety.
